

ONLINE CAREER RESOURCES

Indiana State University Career Center

All of the resources below can be found at www.indstate.edu/career-center

MyPlan is a self-paced, online career and educational planning tool. It will enable you to self-assess your career-relevant personal qualities and explore career fields and major areas of study that are most compatible with your assessment results. There are four areas of assessment: personality, values, interests, and skills. The exclusive login code for the 2014-2015 year is **GXPGRREE**. Once you have completed the assessments, we recommend making an appointment with a career advisor in the ISU Career Center to discuss your results.

What Can I Do With This Major? helps connect academic majors to careers. This site provides information to those exploring multiple majors or searching for information about your chosen field. Each major has information about the industries and employers that often hire students with these majors, as well as provides suggestions about how to gain more information and build strategies to set oneself apart as a potential candidate.

Candid Career provides thousands of informational videos for individuals in all stages of career exploration and planning. Their site was created to provide the inside scoop on careers so viewers are well informed and prepared for what lies ahead. Videos are categorized in two sections—Career Profiles and Get Hired. Career Profiles highlight individuals based on their industries, career title, or college major, while Get Hired videos provide helpful information on professional dress, job and internship searches, interviewing, and more!

Sycamore Career Link (SCL) is the ISU gateway for connecting students, alumni, employers, and Career Center staff. This online service allows students to set appointments with career advisors and sign up for workshops and events. Additionally, you are able to submit your resume into the resume books for referral to employers and search and apply for internships and jobs posted specifically for ISU students. Students are able to log on to SCL from the Career Center's website or their portal using their ISU username and password.

CareerShift is a search engine that allows you to do geographic and industry specific job and internship searches. It also allows you to search for ISU alumni within an organization. Through the system, you can also store application documents, manage applications, and save job or internship opportunities to view at a later date. All postings on CareerShift are recent opportunities that have been posted within the last 30 days.
