PROGRAM REVISION

COLLEGE OF ARTS AND SCIENCES: Women's Studies Program Women's Studies Minor

Executive Summary:

The proposed change will add HIST 439 (Women in the United States) to the list of courses students can take as the bridging course between WS 201 (Foundations of Feminist Theories) and WS 400 (Contemporary Feminist Theories). This addition will provide more flexibility in the courses Women's Studies minors can take for this particular requirement.

Rationale:

Currently students can take WS 301 (Gender, Nation, and Class) and SOC 390 (Social Stratification and Inequality) as the bridging course between WS 201 and WS 400 for the Women's Studies minor. These two courses examine the intersections among gender, race, ethnicity, and class and the impact of these factors on women's lives. WS 301 and SOC 390 also provide students with an important historical context of the effects of gender, race, ethnicity, and class. HIST 439 (Women in the United States) also examines the impact of gender, race, ethnicity, and class and it obviously has a strong historical component, making it a good candidate for a bridging course. Furthermore, the addition of HIST 439 would give students more flexibility and it would insure that a bridging course could be offered one to two times each year.

HIST 439 is also an elective course in the Women's Studies minor. Students will not be able to double count HIS 439 as one of the required bridging courses between WS 201 and WS 400 and as an elective. HIST 439 will also become one of the choices of prerequisites listed for WS 400. Students can only count History 439 as a required course or as an elective, but not as both.
