UNDERGRADUATE PROPOSALS

COURSE REVISIONS

COLLEGE OF TECHNOLOGY: Manufacturing and Construction Technology

MCT 106 Architectural Drawing and Planning I—3 hours. An introduction to wood light-framing design and construction. Includes how to interpret residential construction document, design a simple

project, and document that project using CAD.

Change title and description to:

MCT 106 Architectural Graphics—3 hours. An introduction to architectural graphics and construction documents. Students will learn how to read and interpret working drawings and create a simple drawing using CAD.

MCT 206 Architectural Drawing and Planning II—3 hours. Planning and drawing residential and/or commercial structures on a specific site, including building code requirements, detailed drawings, with an emphasis on working drawings utilizing computer assisted design software packages. Prerequisite: 106.

Change title and description to:

MCT 206 Residential Design and Construction—3 hours. Planning and drawing a residential project using CAD. Includes code requirements, framing, methods, materials, and details. Prerequisite: 106.

MCT 211 Construction Methods and Equipment—3 hours. Sequential operations in building and road construction, including heavy equipment options and applications, concrete, steel, asphalt, earthwork methods, and cost control. Prerequisites: 106, 133.

Delete prerequisites

MCT 211 Construction Methods and Equipment—3 hours. Sequential operations in building and road construction, including heavy equipment options and applications, concrete, steel, asphalt, earthwork methods, and cost control.

MCT 213 Environmental and Mechanical Systems for Buildings—3 hours. Building climate control, heat loss and heat gain calculations, sanitary, and water systems. Prerequisite: 106.

Delete prerequisite

MCT 213 Environmental and Mechanical Systems for Buildings—3 hours. Building climate control, heat loss and heat gain calculations, sanitary, and water systems.

MCT 214 Plan Interpretation and Quantity Take-Off—3 hours. Introduction to the basics blue print interpretation and quantity take-off for commercial and residential construction projects. Prerequisites: 206, 211.

Delete prerequisites

MCT 214 Plan Interpretation and Quantity Take-Off—3 hours. Introduction to the basics blue print interpretation and quantity take-off for commercial and residential construction projects.

MCT 306 Architectural Drawing and Planning III—3 hours. Planning a commercial steel and/or concrete building from a program with a specific site, including code requirements, detailed drawings, and project cost estimate. Prerequisite 206.

Change title to:

MCT 306 Commercial Design and Construction—3 hours. Planning a commercial steel and/or concrete building from a program with a specific site, including code requirements, detailed drawings, and project cost estimate. Prerequisite 206.

MCT 413 Construction Specifications and Contract Documents—3 hours. General conditions of the construction contract, construction specifications, agreement forms, addenda, change orders, and subcontracts. Prerequisite: 306.

Change prerequisite to:

MCT 413 Construction Specifications and Contract Documents—3 hours. General conditions of the construction contract, construction specifications, agreement forms, addenda, change orders, and subcontracts. Prerequisite: 306 or consent of instructor.

UNDERGRADUATE APPROVALS

NEW COURSE

COLLEGE OF ARTS AND SCIENCES: Liberal Studies

LBST 101 Learning in the Liberal Arts and Sciences—2 hours. A first-year academic seminar course designed to aid students as they make the transition into programs in the College of Arts and Sciences. This course is linked through a Learning Community with another major and/or liberal studies course offered in the College. Emphasizes critical thinking skills as they apply to students' academic and personal choices. Co-requisite: designated learning community course.
