Academic Affairs

Dear Dr. Bradley,

At its February 2011 Mid Year Meeting, the Board of Trustees for the American Council for Construction Education (ACCE) reviewed the Second Year Progress Report for the Construction Management Program at Indiana State University.

The report as submitted was accepted by the Board. Actions taken by the institution on correction or elimination of weaknesses and concerns cited in the 2008 Visiting Team Report were approved.

From the information in the Progress Report, the Board summarized the following comments:

The Board of Trustees compliments the Program for a responsive report. In the Self-Study preparation for the upcoming re-accreditation visit in the Fall of 2011, the Board expects to see (1) the status of a new faculty position and Chair search, (2) an update on the new space renovation, (3) evidence that MATH 123 meets the ACCE math requirement, and (4) a curriculum update that shows all required curriculum topical content are covered.

The Board looks forward to complete documentation of these issues in the Self-Study and re-accreditation visit in Fall of 2011.

If you have any questions, please contact Mike Holland, Executive Vice President for ACCE. We look forward to continued cooperation in the accreditation process between ACCE and Indiana State University.

Warmest regards,
American Council for Construction Education

Steve Nellis, President
